CAREER OBJECTIVE

Passionate Full-Stack Developer with hands-on experience in building modern, scalable, and user-focused web applications using Angular, ASP.NET Core, Node.js, and MySQL. Strong understanding of software development, problem-solving, AI-assisted development, prompt engineering, and research-driven learning, with a focus on creating efficient, responsive, and impactful digital solutions.

PROFESSIONAL EXPERIENCE

Software Developer Intern - Megaminds Technologies Pvt. Ltd. | Dec 2025 – May 2026

- Developed a full-stack HRMS & Project Management platform with modules for attendance, recruitment, expense tracking, and task management.
- Built secure REST APIs with JWT authentication and Role-Based Access Control (RBAC) for multi-user access management.
- Implemented real-time notifications, productivity tracking, and dynamic dashboards using Socket.IO and Angular.
- Designed reporting features with Excel/PDF export and automated workflows to improve operational efficiency.

PROJECTS

BookMyDoc – Clinic & Appointment Management App

Flutter | Firebase | Firebase Auth | Firestore

- Developed role-based system for Patients, Doctors, Admin, and Staff
- Integrated real-time appointment booking, PDF receipts, dark mode
- Implemented in-app/email notifications and emergency rescheduling
- Presented in research paper at ISTE National Conference (May 2025)

JourneyJournals – Travel Diary (Web Application)

ASP.NET Core MVC | MySQL

- Developed a responsive travel journal web application using MVC architecture
- Implemented image upload, journal sorting, and timestamp logging features
- Designed intuitive Razor Views and Controllers with clean routing and validation
- Integrated Entity Framework Core for database operations and MySQL connectivity

EDUCATION

Master of Computer Applications (MCA)

- SRIMCA, Uka Tarsadia University, Bardoli
- 2024 – Present | CGPA: 8.77

Bachelor of Computer Applications (BCA)

- S.S. Agrawal College, Navsari (VNSGU)
- 2021 – 2024 | CGPA: 7.70

SKILLS

- Languages: C#, JavaScript, PHP, SQL, Java (Basics)
- Frontend: Angular, HTML, CSS, Bootstrap, Razor Views
- Backend: ASP.NET Core MVC, Node.js, REST APIs
- Database: MySQL, SQL Server, Firebase Firestore
- Tools & Platforms: Git, GitHub, IIS, SSMS, FileZilla, Vercel
- Concepts: JWT Authentication, Role-Based Access Control, CRUD Operations, Repository Pattern, MVC Architecture, API Integration, Responsive Design, Deployment, OOP

CERTIFICATIONS & ACHIEVEMENTS

- NoSQL Database – Great Learning
- Claude Code Certification – Anthropic
- Research Publication:

Presented research paper “Enhancing Doctor Appointment Systems with Adaptive Rescheduling for Rural and Urban Clinics: BookMyDoc” at ISTE National Conference, Indus University, Ahmedabad (May 2025)

- Presented research paper in icSoftComp 2025 – 7th International Conference on Soft Computing and its Engineering Applications Organized by CHARUSAT | Held at Hanoi, Vietnam | December 2025 Published/Associated with Springer
